THE WAY FORWARD

Cosmic energy is life's psychic energy — the Divine Milieu. The cosmic inspiration of divinity in Earth's noosphere is the universal purpose of symbiosis, of ecozoic harmony. Attenuated light energy in the divine milieu gives purpose to all creation as expressed in symbiosis. Motivated in God light, and in harmony with life's purposes of symbiosis, humankind capitalizes potentials of the divine milieu, and by lived example enlightens the lives of others.

Example is more powerful than words

BE THE CHANGE — WE CAN BELIEVE

The inflation and deflation of out-of-date theories and vacuous creeds are “Signs of the Times”. Ecological collapses and cultural implosion leave global humanity no choice but to change. There is a way forward.
